Deadlines for submissions December 20, 2024. Rebates will be in the form of credit on your account with your distributor by February 2025.

Kerb® SC T&O
specialty herbicide

Kerb® SC T&O specialty herbicide is a proven, versatile tool for poa annua control, offering options for pre-overseed, cleanup and season-long performance. Ideal for all warm-season turf, Kerb can be used on golf courses, sport fields and commercial lawn care sites. Kerb's multi-site activity provides control where other herbicides no longer work, including poa annua resistance to other Group 3 herbicides, making it an ideal rotation product for your IPM program. Now fully backed by Corteva Agriscience™ poa annua guarantee program (see program detailer).

Floxcor™
fungicide

Floxcor™ fungicide gives you the upper hand in protecting your turf this fall. With the ability to protect while it moves through the plant, 15-minute rainfastness and safety on most warm - and cool-season turfgrass, Floxcor provides you with the defense you need against commonly found diseases such as: spring dead spot, brown patch, take all root rot and bermudagrass decline. For more information on Floxcor and to start protecting your turf today visit: corteva.us/products-and-solutions/turf-and-ornamental/floxcor.html.

Kerb Poa Guarantee Program

	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr
